

Politician John Rhodes

Another "Rhodes Block"
on the Road to Economic Recovery

**RHODES'
BLOCK
TO ECONOMIC
RECOVERY**

While the
Republicans
in the General
Assembly are working
hard to strengthen our
economy and create new
jobs, **John Rhodes is blocking
progress** in an underhanded
attempt to press his own agenda.

Rhodes BLOCKED the Republican Taxpayer's Protection
Act, killing needed tax cuts and real budget reform.
He even **BLOCKED** the plan helping to monitor and
attract new high-tech businesses to our state.²

His failed leadership has resulted in higher taxes,
more government spending and less accountability.

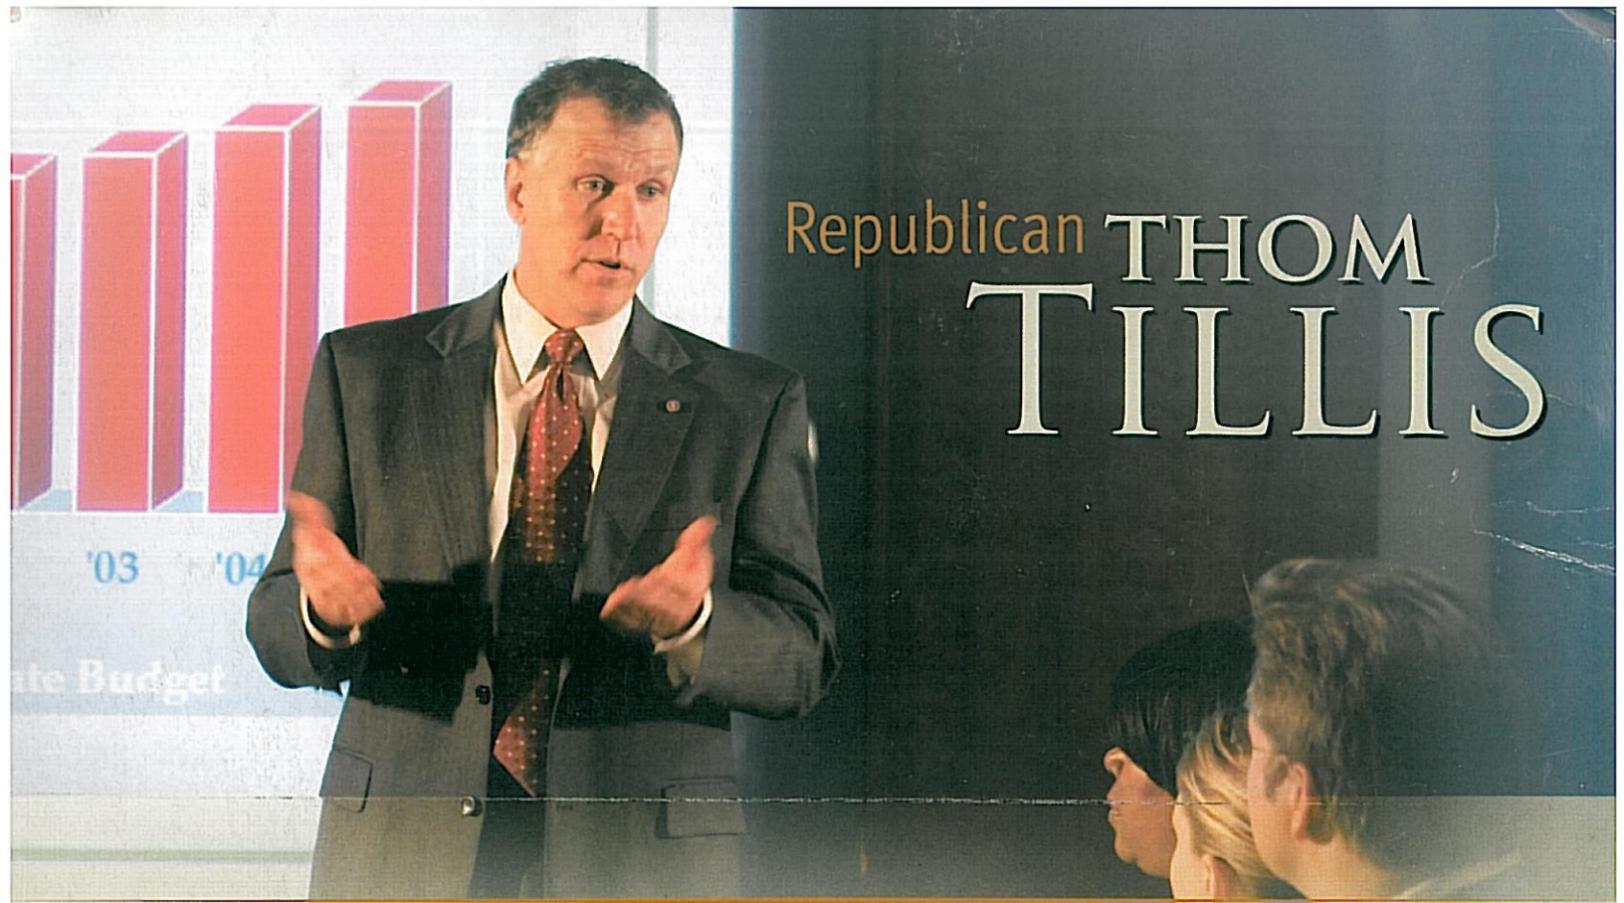

Is that the kind of "leadership" you expect
from your state representative?
