# THOM TILLIS

## *A Plan for Tax Relief*

North Carolina has one of the highest tax rates in the Southeast, and is ranked one of the least attractive states to run a business. That's why Thom Tillis supports the Republican's effort to make our state a more tax-friendly place to live and work. He is the only candidate in the race for the 98th House District with a plan for real tax cuts. Take a look at Thom's plan for tax cuts and see why Republicans from across the state agree Thom has the right plan for us:

RHODES' BLOCK  
ON TAX CUTS

Politician John Rhodes Says  
he's "proudly fighting for taxpayers."<sup>1</sup>

**BUT CHECK HIS RECORD.  
THERE'S NOT MUCH TO BE PROUD ABOUT:**

- X Rhodes **BLOCKED** the Republican Taxpayer's Protection Act, preventing needed tax relief from reaching North Carolina families.<sup>2</sup>
- X Rhodes **FAILED** to provide needed tax relief on skyrocketing gasoline taxes.<sup>3</sup>
- X Rhodes **HAS NO PLAN** to stop illegal aliens from taking taxpayer benefits, like Medicaid.<sup>4</sup>
- X Rhodes **TOOK** taxpayer dollars for his "travel and expenses" on days that he didn't even bother to show up for work.<sup>5</sup>
- X Rhodes even **REFUSED** to hold his fellow political allies accountable for failing to show up to do their jobs, squandering even more taxpayer dollars.<sup>6</sup>
