

Are you being taxed on car repairs  
for the first time ever?

Thank Thom TILLIS for that.

“Things are going to be taxed that  
haven’t been taxed before.”

# Thom TILLIS has been very busy... Raising our taxes.

After eight years, the economy is finally getting back on its feet. But thanks to Speaker Thom Tillis and the North Carolina Legislature, we're not getting any help. Tillis's "tax reform" plan actually raised taxes on 80% of us. And it doesn't end there.

## **Tillis raised taxes on all sorts of things we use every day, including:**

### **Repairs to the cars we drive.**

Tillis expanded the sales tax to cover - for the first time ever - automotive repair contracts.

### **The clothes our kids wear.**

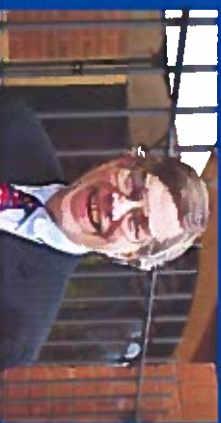

Tillis eliminated all sales tax holidays, including the "back to school" holiday **parents use to buy clothes and school supplies.**

### **Even getting sick or old.**

Tillis eliminated the tax deduction for medical expenses, including trips to the doctor. He also made pension income subject to the state income tax for the first time ever.

CALL THOM TILLIS AT  
(919) 733-3451  
AND TELL HIM TO  
STOP RAISING  
OUR TAXES.

## Sean Haugh: Lower Taxes, Less Government

Sean Haugh is a principled conservative, who believes in limited government. He won't spend money we don't have, and he'll go to work each day for you, not the special interests.
