

November 13, 2014

The Honorable Harold Rogers
Chairman
House Appropriations Committee
H-305, The Capitol
Washington, D.C. 20515

The Honorable Nita Lowey
Ranking Member
House Appropriations Committee
1606 Longworth HOB
Washington, DC 20515

Dear Chairman Rogers and Ranking Member Lowey,

As the House continues to deliberate and draft appropriations legislation before the current continuing resolution expires on December 12, 2014, we write to encourage you to include language that would prohibit funding for the President's reported intentions to create work permits and green cards for undocumented immigrants currently in the United States.

There are currently millions of undocumented immigrants living within our borders. Recently, the United States Citizenship and Immigration Services (USCIS) issued a procurement request for 34 million work permits and green cards over the next five years. President Obama has spoken publicly and privately about his intentions to use executive action to create these work permits for those who are here illegally. This would be in direct violation of U.S. law. As you know, the Congress has the power of the purse and should use it as a tool to prevent the President from implementing policies that are contrary to our laws and the desire of the American people.

We respectfully request that as you work to finalize the year-end funding legislation that language be included in all relevant appropriations legislation for FY 2015 to prohibit the use of funds by the administration for the implementation of current or future executive actions that would create additional work permits and green cards outside of the scope prescribed by Congress. We thank you for your efforts with this legislation and for your consideration of this important request.

Sincerely,

Matt Salmon
