Mr Rob Johnson, Steve Reed and Ms Cynthia LaCorte,

As has already been pointed out to you all by another recipient of your email, it is obvious that you did not bother to read my email responses. If you did, was there something about them you did not understand? Each of these responses was preceded by the corresponding portion of *your original email*. If you had read them, maybe even studied them, you would see that the absurd allegations that were made had no basis in fact whatsoever. Your misdirected anger produced an entirely false narrative.

As I evidenced earlier I tried to engage you in *adult* conversation when I heard of your concerns. Instead of acting professionally, you sent me a list of preposterous accusations. For you and your group's edification, I actually took the time and thoughtfully answered them. Perhaps a wasted exercise in tuition. As for my exercising "political influence," that claim continues the absurdity. I presented evidence to GOP leaders in Onslow County, and elsewhere in the District, that showed your accusations had were entirely meritless. Completely meritless. Up to this point my responses have not been published but I guess that perhaps may be needed. People will then see that this whole thing is completely farcical. As we have learned with the Democrats, false claims are often exposed for what they are. False.

I am not into playing these nonproductive games any longer. There are far far greater issues that face our nation at this point in time. We should have a collective effort in attacking the Democratic Party, not each other. Especially when these attacks are done on the basis of some odd disgruntlement or personal agendas.

Again I would offer to discuss issues rather than continuing in this destructive behavior. This is the last of my email correspondences. I have been more than gracious.

GFM

Rep. Gregory F. Murphy, MD

US House of Representatives, NC3

313 Cannon Building

Congressman Murphy,

I received your original explanatory email Jan 2nd. Jan 3rd, I received your email again via our Onslow County GOP Chair, and again Jan 4th by our District GOP Chair. On Jan 4th, you emailed me again. This time you expressed your frustration with my non-reply. As a precinct chair, I feel it would be unfair to the constituents I represent to engage in formal discussion with you about any opinion they have, not formally asked of me to engage in. I was also unaware my vote for you required me to answer your emails within any deadline you may have imagined.

Furthermore, I find it appalling for you to exercise your influence over elected officials in our GOP with just a whisper. These GOP officials, elected by the people, have broken their trust with the people they supposedly serve. You have instructed them to help you answer the question before it was asked. They have not expressed both sides of this discussion for a voting body to make an educated decision without your influence.

Your unfair advantage is evidenced by distribution of these multiple letters through your political soldiers.

You claim you are a fair man. You also claim your voting history in congress is worthy of re-election. If you have served the people so well, you should have nothing to worry about. Please instruct The Onslow County GOP Chair along with the Dist 3 Chair to share my precinct's original letter to you, openly in emails to every member in our district as they have done for you. They accomplished this for you before, within 24hrs. Let the people hear both sides of this story, then decide what is appropriate or not.

I have included my original letter to you, should you decide to be fair.
Haws Run Republicans
Rob Johnson
Chairman

Congressman Greg F. Murphy NC. District 3

Dear Mr. Murphy,

We The People of Haws Run Republican Voting Precinct by unanimous vote, submit this letter as an official censure of your US House of Representatives voting history in favor of the Democrat Party ideology.

Most recently, your support for HR550, Immunization Infrastructure Modernization Act of 2021, (More appropriately to be named "The Vaccine Tracking Database" or "The Vaxx Traxx Bill"). Your history of voting away our Civil Liberties has been obvious. Listed below are multiple discrepancies on key votes during your past term, in which you voted against the Republican Party Platform, in favor of Democrat Ideology.

1. (3/18/20) On Motion to Suspend the Rules and Pass: Families First Coronavirus Response Act, H.R. 6201

You voted Yea.

This bill was being brought to the floor, pushed by House Democrats, without any committee discussion or debate in the primary committee of jurisdiction, and being brought to the floor without the opportunity for amendments. The process for this bill is only one of the concerns we have over H.R. 6201. Furthermore, it is deceitful of House Democrats to attempt to fast-track a bill to deal with a serious problem like the nationwide concern over coronavirus, which in truth is not much more than a wish list of government programs and policies that they would, clearly like to see made permanent. These programs and policies include an increase in the Federal Matching Assistance Program (FMAP) formula for Medicaid; expansions of the Supplemental Nutrition Assistance Program (SNAP); and paid family leave, money we don't have.

2. (5/14/20) On Passage: USA FREEDOM Reauthorization Act, H.R. 6172

You voted Yea.

Sponsored by House Judiciary Committee Chairman Rep. Jerry Nadler (D-New York), this bill would reauthorize expiring provisions of the Foreign Intelligence Surveillance Act (FISA), including Section

215 of the USA PATRIOT Act and the "lone wolf" and "roving wiretap" authorities. This bill contains a lot of window dressing to conceal that it largely leaves untouched the legal authorities that have been abused to circumvent the Constitution and acquire the data of millions of innocent Americans without a warrant. Including Pres. Trump.

3. On Motion to Disagree to the Senate Amendments and Request a Conference on the USA FREEDOM Reauthorization Act, H.R. 6172

You voted Yea.

This is a procedural vote in the House to go to conference with the Senate on the USA FREEDOM Reauthorization Act, H.R. 6172. House Democratic leadership botched the handling of this bill from the beginning, denying an open process to members. Leading up to this particular vote, Democratic leadership and House Intelligence Committee Chairman Adam Schiff (D-Calif.) continued to play games, negotiating in bad faith with surveillance reformers. A conference committee would lead to reopening H.R. 6172 thus the opportunity to restrict warrantless surveillance on our citizens.

4. (9/25/21) National Defense Authorization Act (NDAA) contained in H.R. 4350

You voted Yea.

Congressman Greg Murphy, you voted yet again to saddle our military service personnel, including perhaps even retired personnel, with "red flag" gun control laws, enforced by military judges. The Democrats and the Bloomberg crowd have been pushing this for a while. Ted Budd and Dan Bishop voted to stand up for the gun rights of our military. Too often, our House "Republican" leaders are as bad as Pelosi.

In your first primary for Congress, North Carolina's leading statewide gun rights group, Grassroots North Carolina, declared that Greg Murphy was the only one, among the 17 candidates, that gun rights voters should NOT vote for.

5. (11/30/21) HR550, Immunization Infrastructure Modernization Act of 2021

You voted Yea,

"H.R.550. to amend the Public Health Service Act (42 U.S.C.) with respect to immunization system data modernization and expansion, And For Other Purposes". Other purposes? What other purposes? This is a very broad term. We are painfully aware of what Washington bureaucrats do when given broad authority. After all, this bill has worked its way through the Committee on Energy and Commerce, Article I sec.8 The "Commerce Clause" being one of two of the most broadly abused terms in our constitution. This bill is a \$400,000,000 expansion of the Federal Government's power through the Delegation Doctrine. It is fiscally irresponsible. While security or confidentiality is only mentioned once in this bill, Expansion and Data Exchange are used over 7 times. This bill opposes our conservative values in every way. This bill is the birth of a Vaccine Surveillance Network. Foremost We The People, find exchange of our private healthcare information as an attack on our 4th Amendment right "To be Secure in our papers and affects". It's a violation of our privacy, you so willfully give away. Make no mistake. This bill is designed to give the government powers they do not and should not possess.

On November 20th 2021, you spoke at the Onslow Lincoln-Reagan Dinner. You specifically stated "A vaccination is between a doctor and patient. The Federal Government has no business interfering with it." Four days later, on November 24th, you are quoted on Newsmax; "The government is not here to give you cradle-to-grave services," Your voice rings hollow. Your willful repeating of that is a falsehood. Your actions only serve to reinforce our concerns when you voted with 214 Democrats in favor of this bill. Yet Congress's report on this bill specifically states in part(II) titled "Background and need for Legislation. . . . data immunization history of a patient to determine appropriate Vaccinations from Childhood to Adulthood" Mr. Murphy, that is the definition of cradle to grave. Your actions do not match your rhetoric. The committee hearing title on this bill should have given you a clue, it is a bad idea.

"Enhancing Public Health Through Legislation"

Mr. Murphy, we have seen your reply to the discontent of others on this matter. We believe you are mistaken in your comments. This bill was not needed. We did not have a problem rolling out this vaccine. This was the fastest rollout of any vaccine in history. Nowhere does it state this is for aggregate information only. In fact their "Cradle to Grave" policy is obviously going to collect private identifiable information. Nowhere does it state that the government cannot use our private information for any reason deemed necessary. Instead, it does specifically state, "The Secretary of HHS and Director of the CDC have authority to decide what type of information will be collected, and to whom it can be disseminated". The Public Health Services Act (42 U.S.C.) confirms this to include all patient identifiable information. A common theme among all these pseudo-laws is that bureaucrats of our federal government remain in control of what information, where, when, and to whom they get to decide access to it. Our current Secretary of HHS is Xavier Becerra. The former Attorney General for California. He previously held a seat in Congress representing Los Angeles. Do you trust him with your private files? We The People, Do Not. Dr. Fauci appears to be heading up the CDC. Do you trust him with your private files? We The People, Do Not! The Truth is Fauci Lied and People Died. The actual wording of the bill states that its purpose is for "Expanding CDC and Public Health Department Capabilities" (subtitle)", "Supporting Real-Time Immunization Record Data Exchange and

Reporting. To Support Rapid Identification of Immunization Coverage Gaps". (1)(B)(viii)
"Implementation of Policies that facilitate Complete Population Level Capture."(1)(B)(xi). Again, here is the proof, this bill is nothing more than the creation of a national database in order to track every American's vaccination status. Do you really believe that the phrase above is something we can trust this administration with? We The People Do Not!

Implementation of Policies according to this bill, not the Law? Is it not the molested policy of OSHA pushing Vaxx Mandates? Is it not the failed policies of democrats in NY, that led to thousands of unnecessary nursing home deaths? Is it not the failed policies of democrats that left Americans behind in Afghanistan? Is it not the failed policies that refused Hydroxychloroquine, Ivermectin and other lifesaving drugs. These policies turned our hospitals into "The Killing Fields!" Remember Faucci Lied and People Died!

Each time you voted with the majority of Democrats Is each time, We The People, lost a little more of our liberties and core values. This is why the conservative watchdog group "Freedom Works" scores you currently at 57% overall job satisfaction rating. When scoring you on Civil Liberties, they give you a big fat "0." This still does not include your tough statements on Jan 5, 2021. How you believed "Multiple states have violated Art.II sec.I of election laws". And you planned on objecting to them all. Amazingly, that lion's roar turned into a whimper Jan 6th. You only objected to the Arizona certification. After your latest trampling of our rights, we believe that your rating will drop overall to less than 50%.

Mr Murphy, congressmen are paid \$175k/yr with an office expense of another possible \$1.5mm. Each is allowed to hire up to 18 staffers. While a lowly military private is compensated only \$22k/yr to die in a ditch if necessary. We expected more from you. We The People, expect a watchdog, forever faithful, guarding our freedoms from DC Swamp Monsters. Your continuous vote with Destructive Democrat Ideology is unacceptable. Some of these particular bills needed a 2/3 majority to pass. Yet you chose to vote with the Radical Left. That alone is bad news. The radical left is using every tool in the chest. They won't be satisfied until they bring this country to its knees. The vaccine mandate is already being used to defile our military readiness. This entire bill has been designed to enforce vaccine mandates. Their terminology is so broad that even private security contractors can be used to enforce their will. Where does that leave We The People, In The Land Of Tyranny? Maybe we should rename HR550 to Murphy's Law. Because anything that can go wrong, will!

Sir, at this time in our nation's history, We The People can ill afford to be giving away the liberties promised us in our Declaration Of Independence and confirmed in our Constitution Of These United States. These times are truly unprecedented, and silence is acquiescence. For those of us who value truth and our national heritage, to be silent in response to your misguided actions is more than mere acquiescence. It would be a betrayal of the vast majority of citizens who value these rights, so graciously bestowed upon us by the divine inspiration of our Founding Fathers.

We The People, of Haws Run Republican Voter Precinct, can ill afford the loss of our liberties and God given rights. You have left us with empty promises. You have departed from our sensible conservative republican views. Your actions do not reflect that of the vast majority of your fellow citizens in our party. Your voting track record in favor of the Democrat Ideology speaks for itself. This is why We The People are exercising our right to censure your behavior. We can no longer support a candidate aiding and abetting the destructive Democrat Agenda.

Robert Johnson
Chairman
Haws Run Republicans

Congressman Greg F. Murphy, M.D. (NC-03) Problematic Votes

1. Vote to support **HR550**, the Immunization Infrastructure Modernization Act of 2021, created for the first time (1) a true standardization across all states of vaccination recordkeeping systems, (2) bidirectional reporting passing from states to federal and back, and (3) authorized coercion through grants and cooperative agreements involving entities such as local health departments to contribute, support, and participate in these goals, which indeed include improving the scheduling and administration of vaccination. The end stated goal is“(xi) supporting the development and implementation of policies that facilitate complete population-level capture, consolidation, and access to accurate immunization information;” Other actual wording found in the bill includes the purpose of “Expanding CDC and Public Health Department Capabilities.”

Nowhere in the actual bill does it state the government cannot use our private information for any reason deemed necessary. The bill however does state, “The Secretary of HHS and Director of the CDC have authority to decide what type of information will be collected, and to whom it can be disseminated.” The Public Health Services Act (42 U.S.C.) confirms this to include all patient identifiable information.

Considering the Democrat agenda of a national vaccine passport system, this essentially standardizes and lays the foundation for such a rollout. The Congress’s report on this bill specifically states in part (ii) titled **Background and Need for Legislation**, “data immunization history of a patient to determine appropriate Vaccinations for Childhood to Adulthood.” Many Republicans loudly opposed this fiscally irresponsible \$400,000,000 expansion of the Federal Government’s power through the Delegation Doctrine. Security and confidentiality is only mentioned once in this bill yet Expansion and Data Exchange are used over seven times.

2. Supportive vote on May 14, 2020 to pass the USA Freedom Reauthorization Act, **HR 6172**. Sponsored by House Judiciary Committee Chairman Rep. Jerry Nadler (D-New York), this bill would reauthorize expiring provisions of the Foreign Intelligence Surveillance Act (FISA), including Section 215 of the USA PATRIOT Act and the “lone wolf” and “roving wiretap” authorities. This bill largely leaves untouched the legal authorities that have been abused to circumvent the Constitution and acquire the data of millions of innocent Americans without a warrant, including its utilization to victimize former President Donald Trump
3. Thirdly, Yea vote on the Motion to Disagree to the Senate Amendments and Request a Conference on the USA FREEDOM Reauthorization Act, **H.R. 6172**. This was a procedural vote in the House to go to conference with the Senate on the USA FREEDOM Reauthorization Act, H.R. 6172. House Democratic leadership botched the handling of this bill from the beginning, denying an open process to members. Leading up to this particular vote, Democratic leadership and House Intelligence Committee Chairman Adam Schiff (D-Calif.) continued to play games, negotiating in bad faith with surveillance reformers. A conference committee would lead to reopening H.R. 6172 thus the opportunity to restrict warrantless surveillance on our citizens.
4. Vote of Yea on September 25, 2021 of the National Defense Authorization Act (NDAA) contained in **H.R. 4350**. This saddled our military service personnel, including perhaps even retired personnel, with additional gun control laws enforced by military judges. Ted Budd and Dan Bishop opposed this effort and protected the gun rights of our military. This act confirms why North Carolina’s leading statewide gun rights group, Grassroots North Carolina, declared Murphy was the only of seventeen candidates that gun rights voters should NOT vote for.
