FOR  U.S. SENATE

July 21, 2026

Dear 

We cannot let former Governor Roy Cooper turn North Carolina into a woke Socialist wasteland.

And,  we are running out of time.

With Roy Cooper running for U.S. Senate, our state is now ground zero for the most competitive and expensive Senate race in American history this November.

That's why I'm asking you to join my **North Carolina Victory Committee** by rushing back a generous \$35 campaign gift today.

The radical national Democrats are already flooding North Carolina with cash from out of state billionaires to build Roy Cooper's war chest...

...And your support today is the only way to stop them.

You may remember Roy Cooper marched with radical rioters who later burned down private businesses in Raleigh.

And it was no surprise when he later pardoned and released thousands of **violent career criminals to walk the streets freely**, leading to the **murder of Iryna Zarutska**.
